Lymphedema

Since 1996, **Marino TherapyCenters** has offered a comprehensive functional program for the treatment of lymphedema.

The treatment protocol can be utilized for these diagnoses:

- ◆ **PRIMARY LYMPHEDEMA:** abnormality of the lymph vessels or nodes
- ◆ **SECONDARY LYMPHEDEMA:** develops from venous/lymphatic insufficiencies due to:
 - Cancer surgery involving radiation and node dissection (Breast, lung, uterine, cervical, prostate, or melanoma)
 - Chronic Venous Insufficiency
 - Venous stasis / Diabetic wounds
 - Post cellulitis
 - Orthopedic surgery or injuries
 - Coronary artery bypass grafts
 - History of Congestive Heart Failure
 - Reflex Sympathetic Disorder

Marino TherapyCenters uses the following procedures:

- Skin and Wound Care
- Manual Lymphatic Drainage
- Compression Bandaging
- Decongestive Therapeutic Exercises
- Compression Garment Fitting
- Monthly Support Group

"The presence of ANY edema, no matter what its cause, is a sign that the lymphatic system has been overwhelmed. It is also a sign that all the other defences, whose activities must not be neglected, have also been overwhelmed."
 Dr. E. Foldi

Average number of visits needed to accomplish goals: 12-24

Please consider referring your patients to **Marino TherapyCenters Lymphedema Program**. Give our **Certified Lymphedema Therapist** the opportunity to help your patients with this often-frustrating disease.
